**Subject:** FW: Activities list for OU3 negotiations - Silver Creek

Folks:

Under the category "no good deed goes unpunished," I appear to have become the de facto point of contact from EPA's perspective for all things associated with the middle reach of Silver Creek. What you may or may not know is that EPA took our innocent little gesture of *inviting them to play with us in resolving UPCM's liability for the Silver Maple Claims site* and turned it into "OU 3" through which EPA appears to be trying to solve all of the world's problems including global hunger and world peace.

The attached document appears to be a to-do list that EPA hopes to assign to either UPCM or Park City by which an EE/CA would be completed for a newly created OU 3 (all of the middle reach plus a little more), a new repository would be constructed, and Park City's and UPCM's claims (offensive and defensive) would be resolved. EPA is proposing a conference call on October 13 sometime between 11:30 and 2:15 MDT "to hear impressions and to discuss the "interests" that parties have identified" as Mi Bearley of EPA put it when I asked her the purpose of the call.

I'm hoping some or all of you can participate in this call and I will ask Mia to forward the invite to you unless you ask me not to. Thanks.
